SUMMARY

Experienced Frontend Engineer with 7 years of experience in designing and developing user interfaces, coding in HTML, CSS, and JavaScript. Proven track record of delivering high-quality, scalable user interfaces to improve customer experience. Looking to leverage my experience in Frontend engineering to drive the success of Wallapop as a Frontend Engineer.

EXPERIENCE

Frontend engineer

Wallapop

June 2022 – Present, Barcelona

- Create and implement new website sections, pages, and functionalities for the primary company website using Angular, NextJS, and Twig, while also enhancing the back office system with Angular.
- Conducted A/B testing initiatives to optimize user experience and performance.
- Ensured ongoing maintenance and improvement of existing features in production, including adapting them for new country expansions.

Frontend engineer

In-Tact

February 2022 – June 2023, Barcelona

- Create and develop multiple projects for our clients, with Angular, Jest and Jasmine.

Frontend engineer

Onebox

July 2021 – February 2022, Barcelona

- Develop new functionalities to the company platform using angular js, and angular 8.

Frontend engineer

Crealogix

July 2020 – July 2021, Barcelona

- Currently, I am responsible for the development of a mobile banking app for the United Arab Emirates. My tasks include coding, reviewing merge requests, and performing releases using Jenkins. Additionally, I am involved in managing client-reported issues in Redmine at certain times.

Frontend engineer

Slashmobility

March 2019 – June 2020, Barcelona

- Development of web applications and hybrid apps, using the latest versions of Angular for (web) and Ionic for (apps).

Full-stack developer

Setting consultoria

March 2017 – March 2019, Barcelona, Spain

- I was in multiple projects, the most notable is the development of an application for the Oncology Institute of Catalonia. I was in charge of developing the application used by the doctors who are in the breast cancer early detection team. The stack used was JAVA for the backend and JSP for the frontend.

Intern Frontend developer

Kuvut

September 2016 – March 2017, Barcelona, Spain

- My internship was aimed at rebranding the company's corporate website. It was developed with CSS, HTML and vanilla JavaScript
